The Students' Exchange

In November, 1959, two of our students experienced a new adventure when they were chosen to represent our school in Students' Exchange. This exchange was sponsored by the Rotary Clubs of Blenheim and Grand Ledge. The students and the staff of Grade Twelve elected, by secret ballot, Jennie Krisfalusi and Jack Ford, for this honour. To represent the Michigan High School, Bruce Mumford and Gloria Basset attended classes in our school.

The week's events for our students included a tour of the Michigan University Campus, the celebration of an American Thanksgiving, a Rotary Banquet at Grand Ledge and classes in the new high school which accommodates one thousand students. Jennie and Jack felt that that Canada has a higher standard of education than that of our American neighbours, although we do not emphasize teaching the systems of governments as much as they do.

It was the hope of the students, that this exchange would become an annual event. They felt that a comparison between the two systems of education, and the experience of meeting new friends, would strengthen the bond of friendship between teen-agers of the United States and Canada.

BDHS NEWS REPORTERS

B.D.H.S. News Reporters

Every week, three diligent workers inform the students and district of past, present, and future activities of the school by the use of the B.D.H.S. column in the Blenheim News Tribune. Helen English, Gaye Russell, and Jim Shillington form this trio.

Helen, a grade twelve student, reports on the social activities of the students while Gaye is in charge of accounting for our girls' athletic endeavours. Together, these girls organize interesting accounts of assembly programmes.

Jim, a grade eleven student, completes the news column with the major details of hockey, basketball, volleyball, and soccer games. He also reports on the activities of the Boys' Athletic Association.
